PETITION

In connection with the appeal of Mr. Shiyan for legal services and the provision of circumstantial evidence of fraud against a citizen of the Russian Federation. We have launched an investigation, the materials provided indicate that «GloboFX» misled Mr. Shiyan, lured money out of money with the help of fraud and abuse of trust, and then transferred fiat money into cryptocurrency through wallets that are under the jurisdiction of the United States.

We ask for your assistance in preventing "money laundering" under section 7201 and section 7206 of the United States.

We also ask for your help to return the funds to the rightful owner in accordance with the UN General Assembly resolution 217 A (III) (International Covenant on Human Rights).

Attached to the petition are materials that confirm the theft of money.
